Dr Ced Wise – M: 0428 718 640
Fat/Eye muscle scanned – Roger Evans
NIOA & RL Pastoral's bulls have been semen + morphology tested, and soundness evaluated by Ced Wise Veterinary Services, Glen Aplin, QLD

Guarantee: All Riverina and NIOA Santa Gertrudis cattle are guaranteed breeders. To ensure the highest degree of confidence with regards to your purchases, all sale bulls are soundness evaluated, semen and morphology tested prior to sale to ensure we have taken every step to ensure your purchases are fit and ready to work. Any claim against the breeding ability of any animal should be made in writing and accompanied by a veterinary certificate within six months of sale. In the event of an animal failing to breed, it may be either replaced with an animal of comparable value or credit will be given to be used at the following sale or on a private sale animal.

Vendor Rebate: The vendors agree to pay 4% rebate to outside agents who introduce buyers in writing at least 24 hours prior to sale, accompany client to sale and settle all accounts in full no later than Thursday 12th September 2024.

A 2% rebate to all agents who introduce buyers at least 24 hours prior to sale and settle in full all accounts no later than Thursday 12th September 2024.

Delivery: All sale cattle will be handled only through the delivery agent (APL Summer Co) and no cattle to be loaded without approval of agents.

No bulls are to be mixed in yards prior to loading, with point of delivery being designated at the Talgai Homestead sale yard facility.

Settling Agent is Elders. All accounts to be settled with Elders and we ask that the buyers' instruction sheet at the back of the sale catalogue be completed and handed in at the completion of the sale.

NIOA and RL Pastoral bulls have been vaccinated for/with:

- Botulism
- 7-1
- Pestigard
- Vibrio
- 3 day sickness
- Blooded for tick fever (excluding females)

Both herds are rated Johannes JBAS –6.

Online Bidding: The sale will be interfaced by Stocklive Elite. We encourage bidders to pre-register to ensure successful connection and approval to bid.

All lots will be photographed and videoed prior to sale and be able to be viewed on both sale platforms along with the web site pages for NIOA Pastoral and RL Pastoral.

Buyer disclosure: NIOA & RL Pastoral companies are separate business entities.

Welcome

RL PASTORAL COMPANY

RL Pastoral Company

On behalf of the Nioa and Sinnamon families, we extend a very warm welcome to the 2024 NIOA RL Pastoral Sale. To our valued clients (new and old), business associates, friends, and family, we present this year's offering of the best genetics from both NIOA and Riverina Santa Gertrudis Studs.

Much has changed in recent years regarding the desired phenotype and market specifications of beef cattle demanded by consumers both in Australia and globally. Maintaining beef as a desired food protein source needs to remain a primary focus for all producers. As a seedstock producer, maintaining our "commercial relevance and industry focus" requires constant attention to our clients' needs. Continuous review of consumer trends is essential to produce seedstock that meets modern market requirements and to stay at the forefront of necessary directional changes.

This year, we have responded to feedback indicating a preference for physical sale ring "selling" over video selling. Consequently, we are returning to this traditional format. For those unable to attend physically, we will continue to video our sale draft prior to sale day, allowing bidding through Elite or phone to ensure maximum opportunity for making informed choices.

We are proud of our past experiences in adapting to change and are excited about the future direction of our breeding programs. We greatly appreciate the support from last year's sale and are thrilled about the new genetic directional changes both studs have implemented to maintain market-leading genetics.

The Spring of 2024 offers great value for investing in new sires. Now is the time to ensure your bull batteries are complete and ready to cope with the female rebuild occurring across much of Australia. This year, we offer 55 bulls (52 poll, including 24 homozygous poll bulls), semen from two of the most exciting bulls in the Santa Gertrudis breed, two IVF flushes, and 12 poll stud heifers. A total of 11 industry-leading sires are represented in the catalogue, showcasing a unique cross-section of bloodlines.

Presale inspections are always welcome!

Thank you for your interest, and we look forward to welcoming everyone on Thursday, September 5th, to the NIOA RL Pastoral Sale at Talgai Homestead, Allora, with the auction commencing at 12 noon!

NIOA

SANTA GERTRUDIS

NIOA SANTA GERTRUDIS

Welcome to Talgai Homestead, the home of NIOA Santa Gertrudis, for the third annual NIOA RL Pastoral Sale. Our warmest Southern Queensland Downs greetings to our valued clients, breed enthusiasts, friends and supporters!

Here at NIOA Santa Gertrudis, we share your passion for the finest quality genetics in the industry and we look forward to contributing to your breeding programs.

As you turn the pages of this year's catalogue, you will discover a curated selection of top-line sires backed up by data and representing the power, fertility and soundness that Santa Gertrudis cattle are renowned for.

Our focus at NIOA Santa Gertrudis is on producing superior cattle, bred for performance – and that has been our vision ever since we established the stud a decade ago. In that time, we have meticulously purchased cattle with world-class bloodlines from a wide selection of breeders.

The herd, under the management of Shannon Gardner, has grown to comprise some of the best stud females available in the business sourced from studs including Bullamakinka, Goolagong, Glen Oaks, Talgai, Rosevale, Riverslea and Gylanda. This, combined with procuring cattle from a diverse range of breeders and extensive AI, ET and IVF programs, has been the foundation of the stud.

An early foundation sire was Wave Hill Jager J14 (PS), a Brisbane Ekka Grand Champion, whose first crop of calves included Sydney Royal Easter Show Champion NIOA Marksman M06 (P) and the highly successful female NIOA Heaven Sent N09.

Our current bull battery includes new sires such as the two 2022 Australian breed record priced cattle Yarrowonga Spartacus S316 (P) and Riverina Roland Sanchez R088 as well as seasoned high-performers including Tookey Creek N24 (P) and Benelkay Quechua Q170 (PP).

In 2022, NIOA Santa Gertrudis formed a strategic business relationship with Riverina Santa Gertrudis' Rob Sinnamon with a view to further developing the genetic pool to produce quality cattle that are commercially focussed and industry relevant. The Sinnamon family is recognised by the Santa community throughout Australia having first registered the revered Riverina stud prefix No. 1070 almost 50 years ago.

Together, we invite you to explore our offerings today, confident that you will find the perfect addition to take your herd to new heights of success.

Once again, thank you for joining us today and please enjoy the Talgai Homestead hospitality.

Overview

NIOA SANTA GERTRUDIS

NIOA
SANTA GERTRUDIS

NIOA Santa Gertrudis was formed in 2014 following the Nioa family's acquisition of Talgai Homestead on Queensland's Southern Downs.

The Allora-Warwick region has deep historical links to the Santa Gertrudis breed in Australia when 12 bulls from King Ranch, USA were offered for sale in 1952.

It's a tradition we are proud of and one that NIOA Santa Gertrudis is focussed on continuing through its commitment to excellence.

In recent years, we have taken our breeding program to the next level with an investment in meticulously chosen Australian and American genetics to ensure our herd has the perfect blend of performance and commercial relevance.

Leading the "new design" genetic program is the 2022 Australian breed record priced sire Yarrowonga Spartacus S316(P).

This impact sire represents modern industry relevant phenotype, backed by an impressive pedigree that combines balance, structural soundness, optimum carcass traits yet retaining ideal Santa Gertrudis breed character.

Additional notable investments in our pursuit of excellence include the former Australian breed sale-topper Riverina Roland Sanchez R88 (PP).

Purchased for what at the time was the Australian record of \$160,000, this sire represents 75 per cent imported US genetics that provide outcross genetics in this country.

Roland Sanchez was sired by 2019 US sale topper Red Doc Never Better (P) and from the record-breaking \$50,000 Yulgilbar Nightingale (Reserve Champion Cow Brisbane Ekka 2019).

Nightingale was in turn sired by the 2015 US national champion bull 777 Vegas 411(P), while Nightingale's mother was grandsired by the legendary Warena Sahara (PP) who sold for an Australian record \$80,000 in 2007.

Through natural service, AI and IVF, both these bulls have been used heavily since purchase, leaving no stone unturned, in the pursuit of maximising genetic improvements.

Other sires have also been purchased from Benelkay, with industry leading AI sires from the likes of Moongana, Cardona and Canowindra studs.

Our cow herd was originally based on the acquisition of carefully selected females from Glen Oaks, Yulgilbar, Rosevale, Talgai, Bullamakinka, Santalands Goolagong, Riverslea, Tookey Creek and Gyranda studs.

These foundation bloodlines have laid the basis of a most impressive set of NIOA bred females in the herd today.

Not only are NIOA bred females now performing at industry leading levels in the show ring and production wise, but they are also commanding recognition of their quality demonstrated by the 2022 sale of NIOA Lucy Q14 (P) for \$50,000.

Equally, NIOA bred sires are now recognised at top dollar, with NIOA Ronaldo R32 (P) (AI) selling for \$55,000 at our 2022 sale.

Our sale draft this year features a distinguished lineup of stud bulls, including the sons of Tookey Creek N24 (P) and Benelkay Quechua Q170 (PP). Star lots this year include the first limited release of semen in the Australian record price bull – Yarrowonga Spartacus S316(P) and the \$160,000 Riverina Roland Sanchez R88 (PP).

An aggressive expansion of the best available bloodlines combined with the acquisition of neighbouring properties will enable further development of our stud herd.

NIOA Santa Gertrudis remains focussed on breeding high performance poll cattle that retain power, fertility and soundness for which the breed is renowned – underlining our philosophy “where tradition meets excellence”.

Overview

RL PASTORAL COMPANY

RL Pastoral Company

Owned and operated by RL Pastoral Company Pty Ltd, Riverina Stud #1070 was established in 1977 by Rob Sinnamon.

Originally located on the Sinnamon family property at Harlin in South-East Queensland, Riverina was based on predominantly Robenlea (founded 1970) bloodlines owned by Rob's parents, Ron and Lynley Sinnamon. St Helena and Bolinda Vale females were also acquired in the early years. Riverina was run in conjunction with Robenlea until 1988, with progeny bred, subsequently integrated into this herd as Rob became a partner in the Sinnamon family "Robenlea" Santa Gertrudis business.

The cattle were initially run at "Torryburn" at Harlin (1977-1994), "Dingyarra" at Toogoolawah (1987-2002) and later at "Peek-a-doo", Taroom (1998-2002). Notable cattle produced during this period included, the \$38,500 top price bull at the 1988 annual Robenlea sale – Riverina Jim Beam purchased by Murrumbo Santa Gertrudis Stud. Riverina Julia was also a top female selling privately to Dave Christensen for \$25,000 in 1987.

With the dissolution of the Sinnamon family partnership in 2002, Rob, Lorraine and Andrew Sinnamon moved to manage Yulgilbar Station at Baryulgil in North-East New South Wales for the Baillieu Myer family. A small number of Santa Gertrudis females were moved to Yulgilbar at that time. A top quality Yulgilbar female (Yulgilbar Wine) was subsequently acquired by son Andrew who went on to win Reserve Senior Champion

Cow at the 2005 Brisbane Royal as well as winning multiple interbreed championships throughout Northern Rivers shows. By 2012 Rob and Lorraine began progressively purchasing at auction, several Yulgilbar Stud females and began to build their stud cattle numbers once again.

Riverina was fortunate to be able to sell sale progeny through the Yulgilbar Annual Production Sale, with the stud's cattle regularly among the top money earners at this annual event. Riverina bred bulls topped the 2014 sale and second top money at the 2018 (\$31,500) and 2021 (\$28,000) sales, respectively.

In 2017, Rob and Lorraine Sinnamon purchased the Kyogle district property "Mayfield" as a future base to accommodate the growing number of top-quality stud females. At this time Rob and Lorraine commenced trading their personal business interests as RL Pastoral Company.

Rob Sinnamon has long advocated breeding "industry focused, commercially relevant Cattle" right back to his Sinnamon family partnership days at Taroom and the Brisbane Valley.

The Riverina Santa Gertrudis herd has been bred based around this philosophy. Rob's past 20 years' experience as General Manager at Yulgilbar Pastoral Company saw this adoption of breeding cattle based around these criteria, with exceptional success in validating the direction of his breeding objectives through wide success in steer and carcass competitions.

Rob has long applied these values to the breeding program at Riverina, underpinning his convictions and backing his judgment, by continually sourcing and purchasing at auction, (for full disclosure) base genetics for Riverina from the best seedstock cattle he bred at Yulgilbar for the Baillieu Myer family.

RL PASTORAL ADVISORY PTY LTD

Rob operates his advisory services under RL Pastoral Advisory Pty Ltd and is also now available to consult more broadly.

Services offered encompass a wide range of agricultural and pastoral pursuits, drawing on a lifetime of management experience across a diverse range of environments and business. He is ready to assist with property acquisition, business planning, budgeting and property development. Genetic selection and development of cattle programs (of all breeds) that suit your environment and aspirations. Marketing plans, staff acquisition and training are amongst the services offered.

In addition to the purchase of genetics, encompassing the most successful bloodlines from Yulgilbar, Riverina has acquired further top priced females from several Santa Gertrudis seed stock producers at auction including:

Bullamakinka	Diamond H	Kemmis Creek	Tookey Creek	Tyndale
Welbatch	Burramurra	Nangaringa	Gyranda	Jamar

In 2018 longtime client of the Sinnamon family, Clinton Wheatley from Western Australia also approached the growing business and subsequently entered a joint venture with Riverina on several elite females that Clinton has purchased with the resultant progeny through Embryo transfer, IVF and natural production being sold in partnership. Several top-quality females were acquired including Successful show cows – Yulgilbar Mississippi (\$30,000), Yulgilbar Nightingale (P) (\$50,000), NIOA Lucy (P) (\$50,000), Murgona Magenta (\$25,000) and Jamar Ribbon for (\$20,000).

The Spring of 2021 saw Riverina Santa Gertrudis Stud mate 150 stud females.

Embryo transfer and IVF continue to be utilised to multiply high quality genetics, including semen from Red Doc Never Better (USA) sold in the US for AU\$197,000; along with the purchase of embryos from Glen Oaks and NIOA show females.

Sale cattle are available for sale both privately and by auction. In March 2022 saw Rob and Lorraine complete a 20-year term with Yulgilbar Pastoral Company. The Sinnamon family is excited to continue to grow and expand their private business interests, trading as RL Pastoral Company.

In April 2002, Rob and Eliza Nioa (NIOA Santa Gertrudis Stud), along with Rob and Lorraine Sinnamon signed a strategic partnership agreement to market their seedstock in an annual production sale. This sale saw the then Australian record broken for the sale of Riverina Roland Sanchez (R88) (PP) (ET) for \$160,000 and the Riverina draft of bulls averaging \$22,400.

Separately, Rob Sinnamon is also providing advisory services to NIOA, assisting in the ongoing growth of the NIOA Pastoral Company including their seedstock operations and the acquisition of two additional properties adjoining Talgai Homestead.

Andrew Sinnamon return in 2023 to assist with running the business while also pursuing his other future aspirations.

YULGILBAR NIGHTINGALE N55 (PP)

Reserve Senior Champion Cow Brisbane Royal Show 2019. Purchased for \$50,000 by Clinton Wheatley (WA) with progeny on a half share basis with Riverina Santa Gertrudis Stud in 2019. Sired by 2015 US National Champion bull 777 Vegas 411 (P) mother of lot 6.

- Bull Under 12 months – 1st Riverina Universe U98 (PS) (IVF)
- 5th Riverina Ulysses U68 (PP) in the bull
- Calf Champion Bull – Riverina Universe U98 (PS) (IVF) first progeny of the \$250,000 Yarrawonga Spartacus S316 (P) to be exhibited
- Heifer 18-21 months – 3rd Riverina Tiffany T29 (P)
- Bull 15-18 months class – 2nd Riverina Tomahawk T22 (PS) sells as Lot 2
 - 4th Riverina Taroom T10 (P) sells as Lot 3
 - 6th Riverina Trinidad T28 (PP) sells as Lot 5
- Bull 18-21 months class – 3rd Riverina Tambo T20 (P) sells as Lot 4
- Senior bull class – 1st Riverina Senator S6 (P) sells as Lot 1
- Cow 24-36 months – 2nd Riverina Sparkle S9 (PP) winner of the class was the eventual All Breeds Champion cow at Beef Australia 2024
- Breeders Group – 2nd place
- Sires Progeny Group – 3rd place
- Progeny of Dam Group – 1st Place

RECENTLY SOLD BULLS

RIVERINA ROLAND SANCHEZ
Sold for \$160,000
to NIOA & Clinton Wheatley

Sold for \$35,000
to Tonlena & Canowindra

RIVERINA LORD MAYOR L22
Sold for \$31,000
to Dunlop Cattle Co.

RIVERINA RELEGATOR R046 (PP)
Sold for \$22,000
to Peter Hughes

RIVERINA Q24
Sold for \$21,000
to Kirkwood

Cattle Selection and Breeding Philosophy

Both RL Pastoral Company and NIOA Santa Gertrudis advocate a balanced assessment criteria for cattle selection. This combines visual appraisal for structural soundness, temperament and overall conformation.

Fertility testing and soundness evaluation are considered essential tools. All bulls are soundness evaluated, manually palpated for crush side semen collection by Ced Wise AB; and morphology tested at Rocky Repro. Rob believes semen and morphology testing should be about assisting the stud master ensuring all bulls offered for sale are fit and ready for work.

NIOA

SANTA GERTRUDIS

RL Pastoral Company

Herd Health

<p>Vaccinated for/ with 7-1, 3-day sickness, vibrio, botulism, pesti-guard and tested negative for Pesti-virus sale bulls are blooded</p>	<p>Prudent consideration of raw measurement data including weight, daily weight gain, frame score, actual scrotal measurement, eye muscle area and fat scans</p>	<p>Full support of the classification system. Both studs undertake to authorise the sharing of dna profiles of lots to the successful purchaser</p>	<p>Both studs are registered with Santa Gertrudis Group BREEDPLAN</p>
---	--	---	---

Riverina Santa Gertrudis was an early adopter of the use of DNA testing including testing for horn/poll, parent verification, and implementation of Single Step genomically enhanced EBV's; along with verification of testing free of Pesti virus through Zoetis, while NIOA Santa Gertrudis DNA profiles are tested through Neo-gen.

Rob Sinnamon believes that selection of extremes should always be approached with caution. He advocates that single trait selection for any characteristic is dangerous and lacks balance in any breeding program. The use of a combination of the many available "tools" for selection in the industry today is valuable and allows the discerning cattle person to be far more informed about livestock selections than ever before.

BREEDPLAN GUIDE TO ANIMAL SELECTION

TIP SHEET

The breeding decisions that a beef producer makes today will have a significant impact on the genetic progress and associated profitability of their herd into the future. Profitability of the herd will be influenced by the number of calves (fertility), the weight of the calves (growth) and the quality of the calves (carcase), less the cost of production. All of these components are influenced by genetics.

With the selection and purchase of an individual breeding animal being a long-term investment, it is important that beef producers take care to select the most profitable animals for their particular production system.

BREEDPLAN BEST PRACTICE GUIDE TO ANIMAL SELECTION

BREEDPLAN recommends using selection indexes (where available) as part of a selection strategy which also includes other selection tools (e.g. EBVs and visual assessment). By initially ranking animals using an appropriate selection index, beef producers ensure balanced selection for traits important to their production system.

The BREEDPLAN best practice guide to animal selection is to:

1. Identify the selection index of most relevance to you.
2. Rank animals using the chosen selection index.
3. Consider the individual BREEDPLAN EBVs of importance.
4. Consider other traits of importance

For more information on EBVs, scan the QR code for a complete guide to animal selection by BREEDPLAN

COMMENTS

A really big bull here! If you need to increase size and growth in your breeding program this is the changer bull to achieve just that! His remarkable structural soundness for a big bull is illustrated by his freedom of movement. Clean light sheath, dark in colour with great temperament. Meadow produced two calves before being found dead at Mayfield. Her first son was a private sale bull selling for \$8,000 and Senator. Senator won the senior bull class at Beef Australia 2024 in Rockhampton. Senator ranks in the top 5% for all growth indices as well as carcass EBV's. Owned by Andrew Sinnamon.

COMMENTS

New bloodline. Tomahawk placed second at Beef Australia, behind the Reserve Junior champion bull in a large class of 22, pushing this year's Sydney Champion to third place! Tomahawk also secured Reserve Interbreed Junior Champion Bull at the 2023 Kyogle show as a yearling. He has great presence and outlook as a commercially oriented sire, with optimal carcass traits, strong spine, spring of rib, and butt profile. Uma has had five calves (three classified); a son sold for \$9,000 to Arrabury Pastoral, another as a commercial bull. A sister placed second to the Interbreed Champion Cow at Beef Australia and was Reserve Interbreed Champion cow at Casino Beef. Tomahawk ranks in the top 5% for 200-day growth, and top 10% for 400 and 600-day growth.

COMMENTS

New bloodline. Taroom stood 4th in the big class of 22 at Beef Australia. Love the structural correctness, depth of body and desirable coat type in this quality young sire. L7 has had five recorded progeny, four classified and a bull recently weaned. A son sold to Peter Hughes from Bourke for \$7000, a heifer retained in the stud, another son sold last year for \$8,000 to the Fletcher family. Ranks in the top 10% for 200 growth EBV's.

COMMENTS

Tambo stood third to the Grand Champion bull at Beef Australia. Impeccable temperament, desirable breed character and sound bone! A complete package that exhibits ideal coat type, along with great depth of body and built structurally correct. One of the good ones! His dam has a pedigree stacked with many of the breeds great sires.

COMMENTS
New bloodline. Homozygous poll and a really good bull! Trinidad is a half brother to the \$35,000 Riverina Remington who sold to Tonlena and Canowindra Santa Studs in 2022. Perhaps one of the most eye appealing bulls in this years draft, he placed sixth out of 22 bulls at Beef Australia. Superb breed character, a silky skin and stands on great bone, while exhibiting a desirable carcass phenotypically. His mother was purchased for \$10,000 and has five recorded progeny along with a number of frozen embryo's collected. Three have classified and a natural calf along with an IVF calf recently weaned.

COMMENTS

Tucson is one of the youngest bulls in this years draft! Again homozygous poll, this bull really is admired for his carcass shape, bone, volume and constitution. Long bodied and showing the genetic strength of his Maternal grandsire in the 2015 US National Champion 777 Vegas. His mother Yulgilbar Nightingale was Reserve Senior Champion at the Brisbane Royal Show in 2019 before selling to for \$50,000. His half brother – Riverina Roland Sanchez sold for \$160,000 in 2022. Nightingale has had nine recorded progeny to date (six classified and two not yet presented). A commercial bull sold for \$14,000.

COMMENTS

Utah (U11) will lead the 2024 NIOA show team at this year's Brisbane Royal Show. Utah stood first in his class and Reserve Junior Champion bull at Clifton Show earlier this year. Size and exceptional growth in this large framed sire prospect, combined with structural soundness and functional efficiency. Really appreciate the average daily gain in this bull! Rosevale N353 has had four progeny. A commercial heifer at Rosevale prior to purchase, a commercial bull at NIOA and two classified sons including U11. A son last year sold to Annabranth Santa Gertrudis Stud for \$12,000.

COMMENTS
Stud or commercial, don't overlook this outstanding sire prospect. Displays an ideal coat and sires outlook. Clean underline, structurally correct with good testicular development. Kemmis 862 has had two recorded progeny with T34 being her first, with a heifer recently weaned. Rob Sinnamon considered A862 the pick of the Kemmis Santa Gertrudis Stud heifer draft and was purchased by Riverina.

COMMENTS

New blood. T14 is a deep bodied sire prospect displaying great volume and capacity. Love the breed character and tropical skin type that combines to portray a great sires outlook! H125 has had seven progeny (six classified). Her first son was utilised in the commercial herd at Yulgilbar, her second son sold to Tim and Cynthia Walker from Clermont, her third bull sold to S Kidman and Co and Toowoomba sells in this year's sale. Ranks in the top 10% for 200 and 600 day growth.

COMMENTS

U23 is an earlier maturing bull displaying exceptional constitution and do ability. Love the volume and depth in this young sire prospect. Rosevale P229 has had four calves, two have classified and a heifer not yet presented. A daughter is retained in the stud. A son sold in 2022 to Jamie Baker for \$8000.

COMMENTS
T66 is a young sire prospect (19 months), not to be overlooked! Really appreciate the soft tropical skin type that combines with great depth of body. A quality sire here with volume and capacity complimented with a tight sheath and structurally correct. His mother, Wellbatch Verdelho was a successful female purchased at the Brisbane Valley sale for \$7000. She has had four calves (three classified and a bull calf recently weaned). two daughters have been retained in the stud.

COMMENTS

Homozygous poll. New Blood. T30 is deep bodied with desirable volume and capacity. This young sire prospect has great breed character with good testicular development. Ranks top 5% for 200 day growth and top 10% for 400 and 600 day EBV growth indices. Diamond H Sydney has had seven recorded calves (five classified and a heifer NYC) Talisman is her first male progeny, balance being females.

COMMENTS

Homozygous poll. A real power house here! Big strong and robust. Love the overall capacity and depth of body that is complimented by a soft skin type in this outstanding sire. NIOA Lucy Q14 (PP) was a successful show female who sold to Clinton Wheatley in 2022 for \$50,000 and was the calf at foot when sold. She has recently weaned a natural heifer calf along with producing five IVF calves in the past 12 months (all exceptional quality). Ranks top 5% for rump and rib fat EBV's. Offered for sale on behalf of Wheatley and RL Pastoral Company.

Purchased by NIOA (7/8 share) and RL Pastoral (1/8 share) for \$250,000 (current Australian record). The first semen to sell domestically in Australia. Offering ten straws (five registrations). Additional registrations available at \$500/animal. A grandson of the legendary Yarrowonga Corvette (P), Spartacus epitomises a modern day Santa Gertrudis beef bull. He combines desirable breed character with flawless structure. Tremendous volume and capacity illustrated here in a phenotype that will meet a wide range of market specifications. His first son shown at Beef Australia was Calf Champion Bull in a very strong showing. Currently in quarantine being collected for International export.

COMMENTS

Purchased in equal shares by NIOA and Clinton Wheatley in 2022 for a then Australian record of \$160,000. Riverina has retained a semen interest. 75% North American outcross genetics with his sire Red Doc Never Better (P) selling for \$197,000 (Australian dollar equivalent). Out of Yulgilbar Nightingale who sold for \$50,000 after winning Reserve Champion cow at Brisbane Royal Show in 2019; who was in turn by the 2015 US National Champion bull – 777 Vegas 411 (P). Rare genetics with his first progeny to be exhibited at Brisbane Royal Show. He combines growth for age with superb structural soundness in a balanced complete phenotype. Reproductively clean in the sheath with good testicular development. His length and strength of spine are complimented by his overall volume and capacity, with desirable muscle extending right through and down into the lower thigh. Offering ten straws (five registrations) Additional registrations available at \$500/animal.
